ANNEXURE-I

STATEMENT SHOWING THE ARTICLE OF CHARGES FRAMED AGAINST SRI T.GOPAL DAS, THE THEN DEE., V&QC., SD., JAMMALAMADUGU, YSR KADAPA DIST. AND NOW WORKING ON DEPUTATION AT A.P.T.I.D.C., VIJAYAWADA, KRISHNA DISTRICT.

CHARGE:-

That Sri T.Gopal Das, the then Deputy Executive Engineer, V&QC SD., Jammalamadugu, YSR Kadapa District and now working on deputation at APTIDC Vijayawada, Krishna District has committed grave irregularities in execution of project for Comprehensive development of SC/ST Colonies under MGNREGS for "providing internal Roads with CC Drains in Narasannapalli SC colony of B.Mattam Mandal" in YSR Kadapa Dist., and caused loss to the Government exchequer to a tune of Rs. 42,22,739/-., in as much as he:-

1. Issued QC Certificate to the CC Pavement of substandard quality without conducting any quality control tests during and after laying of CC pavement.
2. Has not verified Quality and measurements of sand layer under the CC pavement.

Thus, Sri T.Gopal Das, the then Deputy Executive Engineer, V&QC SD., Jammalamadugu, YSR Kadapa District and now working on deputation at APTIDC Vijayawada, Krishna District by his above mentioned acts, has exhibited lack of integrity, not shown devotion to duty and exhibited conduct unbecoming of a Government Servant, in contravention of Rule - 3 of Andhra Pradesh Civil Services (Conduct) Rules, 1964.

ANNEXURE –II

STATEMENT OF IMPUTATIONS OF MISCONDUCT OR MISBEHAVIOUR IN SUPPORT OF ARTICLE OF CHARGE FRAMED AGAINST SRI T.GOPAL DAS, THE THEN DEE., V&QC., SD., JAMMALAMADUGU, YSR KADAPA DIST. AND NOW WORKING ON DEPUTATION AT A.P.T.I.D.C., VIJAYAWADA, KRISHNA DISTRICT.

The V&E Department has inspected the work "Providing internal Roads and CC Drains in Narasannapalli SC colony of B.Mattam Mandal" YSR Kadapa Dist." and furnished their report in Vigilance Report No.71 (40-1/V&E/E/2015), dated:01.08.2017. the following irregularities were reported by the V&E Department in their report on the said work:-

i. Sub grade soil exploration was not conducted and the crust of the pavement was neither designed nor approved. The crust of the road was provided as per the drawing communicated by the technical advisor to Rural Development without ascertaining the sufficiency of the CC pavement thickness. The thickness of CC pavement, 125 mm provided in the approved estimate was insufficient as per table 5 of IRC SP 62 – 2004, but sub base thickness provided was more than the required.

ii. In the original sanctioned estimate, the width of CC pavement provided was 2.50m, the width of GSB required was 2.95m (2.50 + 2 x 0.225) and width of WBM required was 2.70m (2.50 + 2 x 0.10) considering 1H:1V (45 degrees) load distribution. GSB of 3.65m width provided in original estimate were more than required, but after approval of working estimate for 3.00 m width of CC pavement, the width of GSB and WBM were satisfactory. Gravel Shoulders of 0.75 m width provided on both sides of the carriage way were not executed, resulting in roadway of 3.00m width and crossing of the vehicles was difficult.

iii. Sand layer of 100 mm/75mm thickness does not exist under CC pavement. The field Officers recorded measurements in M.Book without actually laying sand layer and the payment authority paid bills without any work. The recovery calculated and proposed for cost of sand layer paid without actually executing sand layer is Rs.4,28,070/-

iv. The lengths of CC pavement when verified found to be not tallying with the recorded measurements in roads 1) Upadesi house to CH.Guravaiah house road 2)Main Road to Pedda Obaiah house road, 3) Main road to Polaiah house. The total shortfall in length is 144.25m (56.75+78.70+9.80).

v. The CC pavement was executed without obtaining the Mix design for M 30 grade concrete and without obtaining approval of the mix design report by the competent authority. The compressive strength of CC pavement was tested by extracting 21 CC cores from Hardened concrete and the strength obtained was not satisfying the strength requirement as per Clause 17.4.3 of IS456 -2000 (RA 2011) for M30 grade concrete. The CC pavement was rejected due to substandard quality and it will not serve the intended purpose. The value of the Rejected CC pavement is Rs.37,94,669/-

(p.t.o.)

vi. CC pavement was laid against the norms in other than SC colony to a length of about 1135.10m in Virat Nagar of B.Mattam town against the aim of the G.O.389 to develop the SC/St localities.

vii. The total length of the CC pavement executed was 4076m against the provision of 1785m in original estimate. The length of the road executed was 2291m more than original estimated length and the percentage of deviation is 128.30%

viii. During field verification, it was observed that CC pavement was laid at different levels at the junction of the roads. Longitudinal profile was not maintained for smoothly negotiating the vehicle at the junctions.

ix. Provision of CC drains of 3570 m length was made in the original estimate. It was reduced to 375 m in the working estimate, but CC drains were not executed with an intention to execute more length of CC pavement in areas other than SC colony. Provision of Cover slabs was made to a length of 3570 m in original estimate, reduced to 375 m in working estimate and finally not executed.

x. The work was completed, and the work done estimate and completion report were approved on 24.02.2015. The value of work done is Rs.78,17,801/- including VAT and other statutory provisions. There is a saving of Rs.6.97 Lakhs available in the work done estimate.

Sri T. Gopal Das, the then Deputy Executive Engineer, V&QC SD, Jammalamadugu is responsible for the above irregularities by way of not conducting quality control tests during and after execution of the above work and for issuing QC certificate for the said work.

Thus, the above accused officer has failed to discharge his legitimate duties properly and acted for his personal gain and caused loss to the Government, to a tune of Rs. 42,22,739/- in contravention of APCS (Conduct) Rules, 1964.

Hence, the charge.
